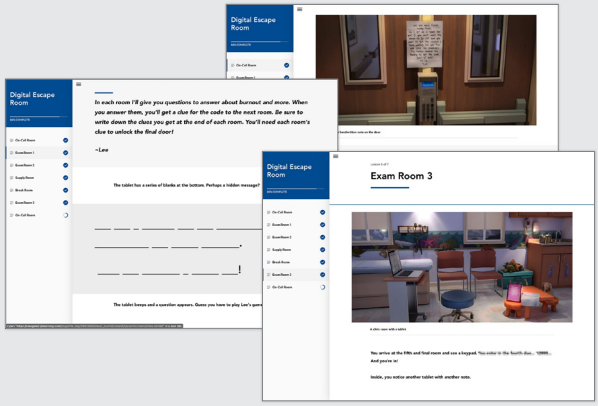
Bring Concepts to Life!

Our innovative digital learning resources allow students to safely experience situations they'll encounter in their nursing careers, preparing them to make sound clinical decisions and provide optimal patient-centered care.



Digital Escape Room

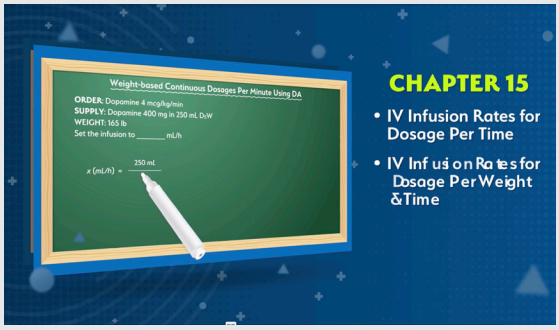
Accessed through Navigate Advantage for ***Brown's Evidence-Based Nursing: The Research-Practice Connection, Fifth Edition***, this unique **Digital Escape Room** allows students to play the part of a new practitioner at an urgent care center. They'll progress through a fun scenario set up by a friendly coworker and will need to answer questions on nursing burnout to find clues and move through various rooms at the urgent care center before making their "escape."

Learn more at **go.jblearning.com/BrownsEscapeRoom**

The updated Sixth Edition of ***Nursing Informatics and the Foundation of Knowledge*** features new **Unfolding Case Studies** that allow students to immerse themselves in a clinical situation and dive deeper into key concepts from the text. These 10 new unique interactive case studies are accessed through Navigate Advantage.

Learn more at **go.jblearning.com/nursinginformatics**

Unfolding Interactive Case Studies



Illuminations: Video Calculation Clips

These short **clinical calculation video clips**, available in Navigate Advantage for the updated ***Clinical Nursing Calculations, Third Edition***, demonstrate the key math skills covered throughout the text to include metric conversions, basic dosage calculations, computations requiring reconstitution, basic and critical care IV calculations, safe dosage determination, and implementation of a weight-based heparin protocol.
