

# Adding JBLearning Content to your Canvas LMS

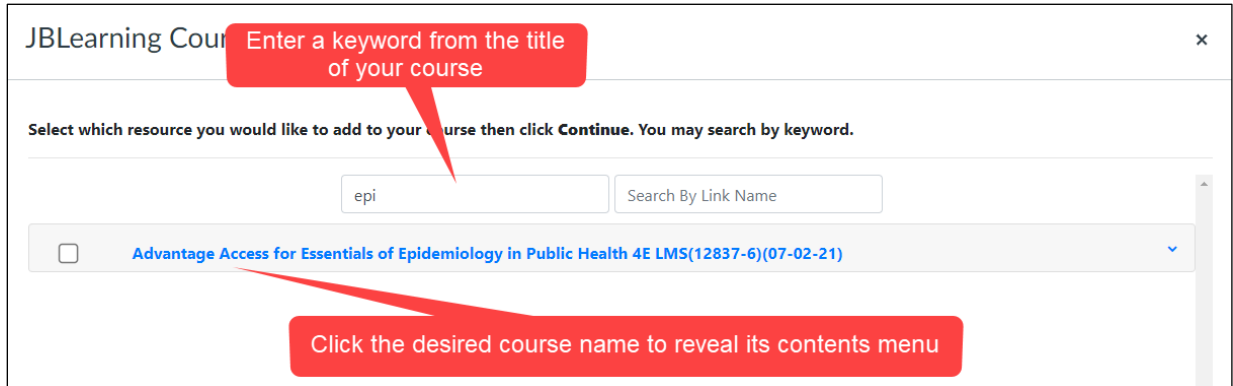

This document provides steps for adding, or deep-linking, JBLearning online courseware within your integrated Canvas Learning Management System (LMS). Note, an LTI integration with JBLearning is a prerequisite, and these instructions assume applicable initial steps are complete.

1. Navigate to a course, or create a new course, in which you would like to add content in your Canvas LMS. There are two options for adding content. You may elect to add all the course's content in one step or add select modules/chapters at a time.
2. To add all course content organized within its original structure, click the **inverted ellipsis button** at the top of the page and select the **JBLearning Courses** option from the list. Note, your LMS Admin may have assigned a custom naming to this tool. If you do not see the option, please consult with your local LMS Admin.

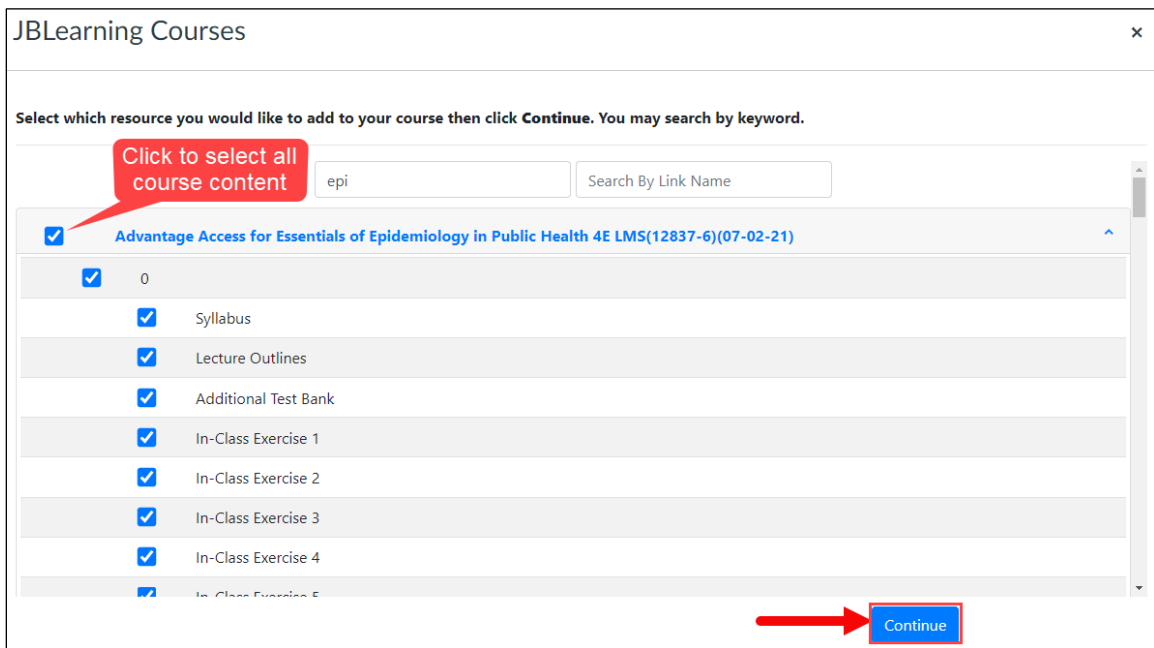

Technical Support: [www.jblearning.com/techsupport](http://www.jblearning.com/techsupport) | [support@jblearning.com](mailto:support@jblearning.com) | 1-978-443-5000 | M-F 8:30am – 8:00pm

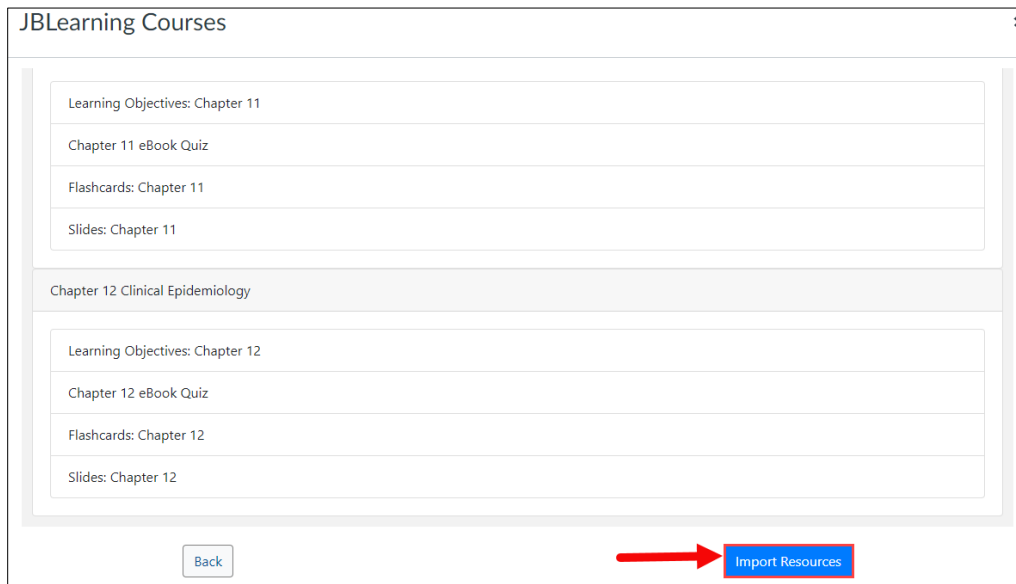

3. A popup window displays a list of available courses to which your system has access. Use the **Search By Course Name** field to locate your course as needed. The list displayed automatically returns results based on the keywords entered. Click on your course's name to display its contents. **Note**, it is important to only add content from approved titles for your course. Students are unable to access any content outside of your chosen curriculum.

4. Depending on the volume of the course's content, it may take a moment for all items to display. Contents are organized using the default course structure, typically by chapters aligned with the textbook. You may add all contents and their default module structure to your Canvas course in one step (recommended) by selecting the checkbox to the left of the course name, then clicking **Continue**.

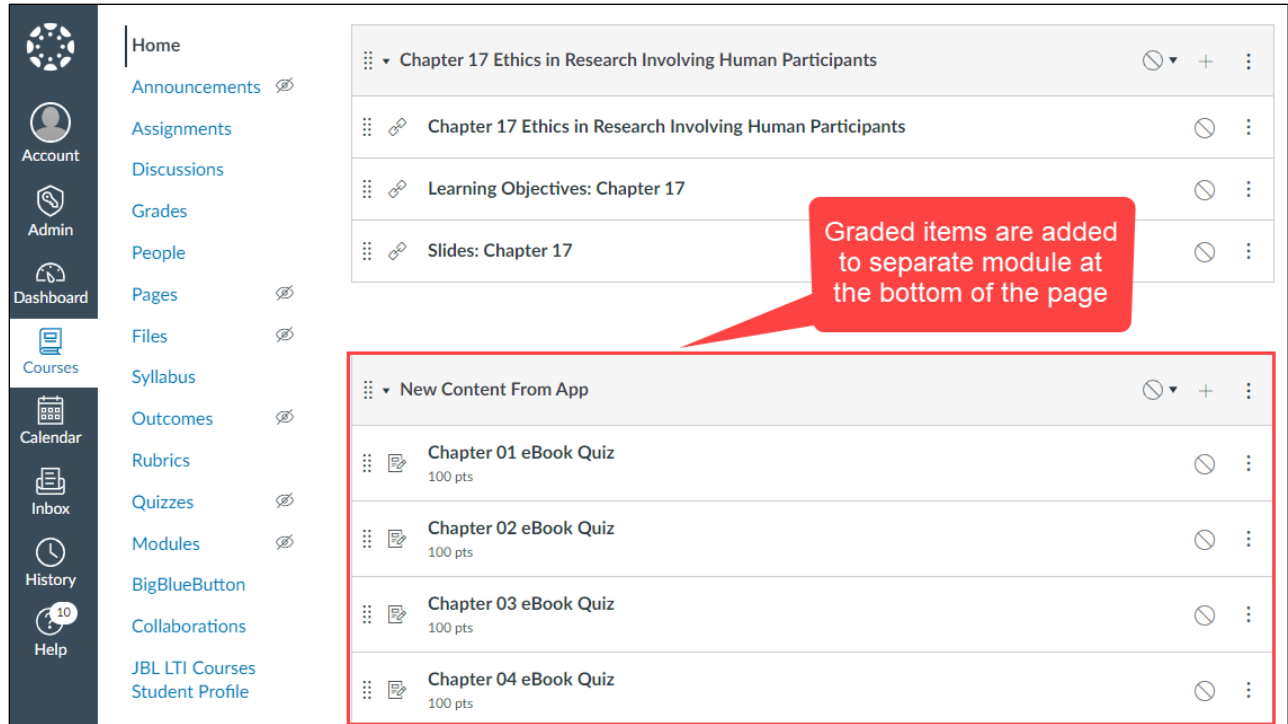

5. The following confirmation page displays a preview of the content selected. Scroll to the bottom and click **Import Resources**.

Technical Support: [www.jblearning.com/techsupport](http://www.jblearning.com/techsupport) | [support@jblearning.com](mailto:support@jblearning.com) | 1-978-443-5000 | M-F 8:30am – 8:00pm

6. You are returned to your Canvas course where the imported content is deep-linked within their respective modules. **Note**, any graded items, such as eBook Quizzes, are automatically placed within a standalone module at the bottom of the course content labeled “New Content From App.” These may be manually moved to other course modules as needed.

7. Alternatively, you may select individual course modules/chapters and items from the menu one at a time, or multiple in combination. Using the same **JBLearning Courses** tool as shown in Step 2, expand the course's content menu and use the respective checkboxes to the left of the modules and/or items to import, then click **Continue**.

Link Resource from External Tool

Select which resource you would like to add to your course then click Continue. You may search by keyword.

- Chapter 2 Measures of Disease Frequency
- Chapter 2 Measures of Disease Frequency
- Learning Objectives: Chapter 2
- Chapter 02 eBook Quiz
- Slides: Chapter 2

Chapter 3 Comparing Disease Frequencies

- Chapter 3 Comparing Disease Frequencies
- Learning Objectives: Chapter 3
- Chapter 03 eBook Quiz
- Slides: Chapter 3

Continue

8. The confirmation page displays a preview of the content selected. When satisfied, click the **Import Resources** button.

JBLearning Courses

9. Imported items are automatically added to newly created Canvas modules named for the JBLearning course's sections/chapters displayed in the tool. Repeat these steps as needed to continue building your course. **Note**, subsequently adding content from a chapter/module from which content was added prior will create a duplicate chapter/module in Canvas to place the items.

The screenshot shows the Canvas LMS interface for the course 'Epidemiology 101'. The left sidebar contains navigation options: Home, Account, Admin, Dashboard, Courses, Calendar, Inbox, History, Help, BigBlueButton, Collaborations, JBL LTI Courses, Student Profile, and Settings. The main content area displays a list of modules under the heading 'Epidemiology 101 > Modules'. The modules listed are:

- Chapter 1 The Approach and Evolution of Epidemiology (non-graded)
- Chapter 1 The Approach and Evolution of Epidemiology (imported)
- Chapter 2 Measures of Disease Frequency (non-graded)
- Chapter 2 Measures of Disease Frequency (imported)
- New Content From App (graded)
- Chapter 01 eBook Quiz (100 pts) (graded)
- Chapter 02 eBook Quiz (100 pts) (graded)

Two red callout boxes provide additional information:

- The top callout box states: "Non-graded content is automatically added to new Canvas modules based on their origin in the JBLearning course".
- The bottom callout box states: "Graded items are added to separate module at the bottom of the page".
