

Adding JBLearning Content to your Blackboard LMS (Ultra Theme)

This document provides steps for adding, or deep-linking, JBLearning online courseware within your integrated Blackboard Learning Management System (LMS). Note, an LTI integration with JBLearning is a prerequisite, and these instructions assume applicable initial steps are complete.

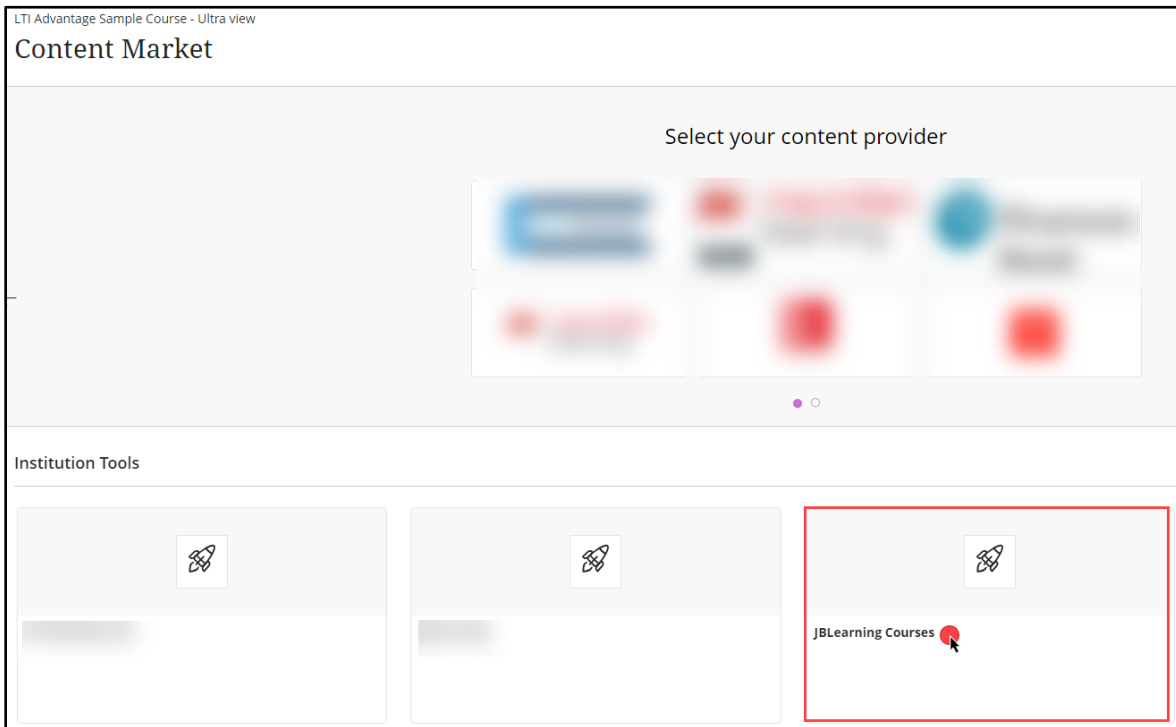

1. Navigate to the Blackboard course in which the JBLearning integration has been configured for use. Next, navigate to the content area or module under which you would like to add JBLearning content, then click the **Add Content** option and select **Content Market** from the resulting dropdown menu.

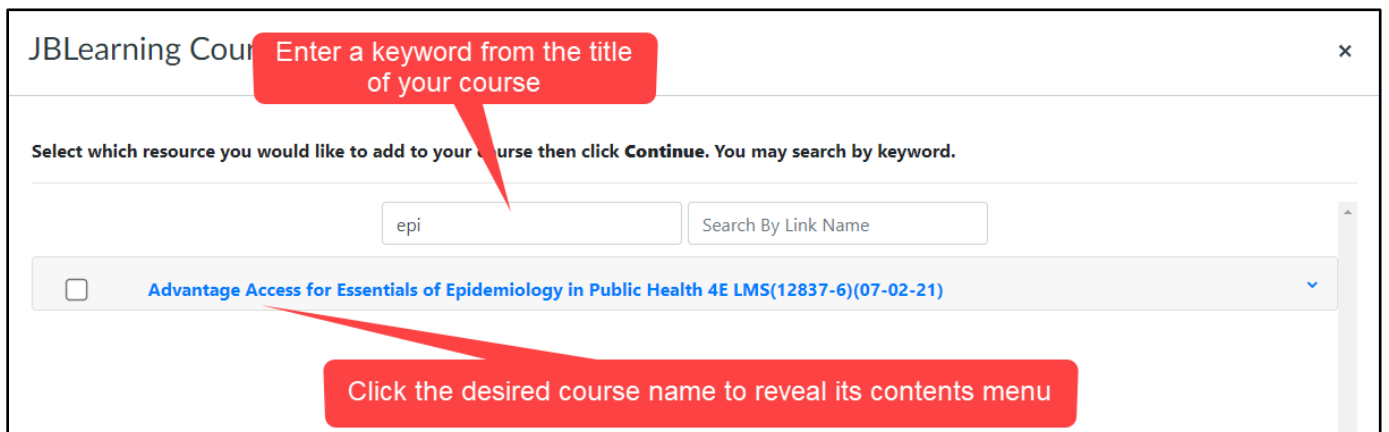

The screenshot displays the Blackboard LMS Ultra theme interface for an LTI Advantage Sample Course. The page title is "LTI Advantage Sample Course - Ultra view". The navigation bar includes "Content", "Calendar", "Announcements", "Discussions", "Gradebook", "Messages", "Analytics", and "Groups". The "Content" tab is active. The "Course Faculty" section shows two user avatars and a "Show more" link. The "Details & Actions" section includes "Roster" (View everyone in your course), "Progress Tracking" (Turn on), "Course Image" (Edit display settings), and "Course is open" (Students can access this course). The "Course Content" section shows "Chapter 2" with a "Hidden from students" status. A red box highlights the "Add Content" icon (a plus sign in a square) next to Chapter 2. A dropdown menu is open, showing options: "Create", "Copy Content", "Upload", "Cloud Storage", "Content Market" (highlighted with a red box and a red arrow), and "Content Collection".

- Under **Institution Tools** options on the following page, select “**JBLearning Courses.**”
Note, this may have custom naming applied. If you do not see this option, please consult your LMS Administrator.

- A new tab in your browser displays a list of available courses to which your system has access. Use the **Search By Course Name** field to locate your course as needed. The list automatically returns results as keywords are entered. Click on your course’s name to display its contents. **Note**, it is important to only add content from approved titles for your course. Students are unable to access any content outside of your adopted curriculum.

4. Contents are organized using the default course structure, typically in chapters aligned with the textbook. You may add each chapter's contents to the respective modules/chapters one at a time (**recommended**) by selecting the checkbox to the left of the chapter name, then clicking **Continue**.

Select which resource you would like to add to your course then click **Continue**. You may search by keyword.

<input type="checkbox"/>	Chapter 01 eBook Quiz
<input type="checkbox"/>	Flashcards: Chapter 1
<input type="checkbox"/>	Slides: Chapter 1
<input checked="" type="checkbox"/>	Chapter 2 Historic Developments in Epidemiology
<input checked="" type="checkbox"/>	Learning Objectives: Chapter 2
<input checked="" type="checkbox"/>	Chapter 2 Historic Developments in Epidemiology
<input checked="" type="checkbox"/>	Chapter 02 eBook Quiz
<input checked="" type="checkbox"/>	Flashcards: Chapter 2
<input checked="" type="checkbox"/>	Slides: Chapter 2
<input type="checkbox"/>	Chapter 3 Practical Disease Concepts in Epidemiology

Continue

5. The following confirmation page displays a preview of the contents selected. Review your selections and click **Import Resources**.

Advantage Access For Introduction To Epidemiology, 8 E Lms (17072 6) (09 16 2021)

Learning Objectives: Chapter 2

Chapter 2 Historic Developments in Epidemiology

Chapter 02 eBook Quiz

Flashcards: Chapter 2

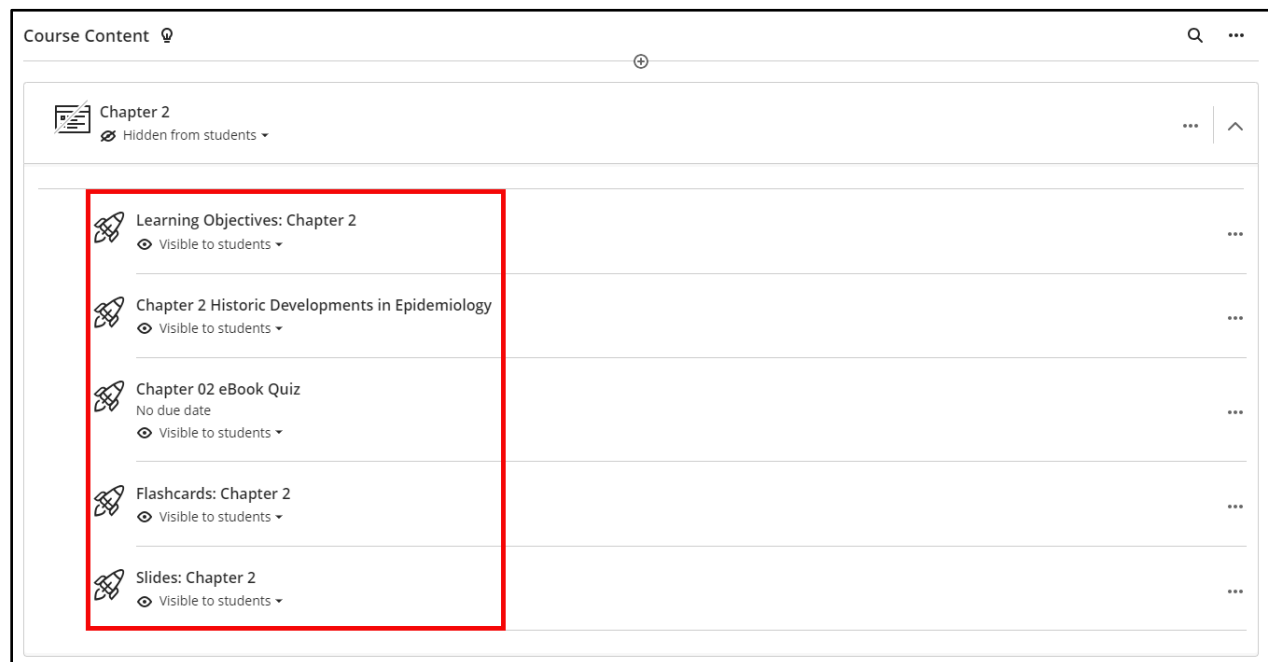

Slides: Chapter 2

Back **Import Resources**

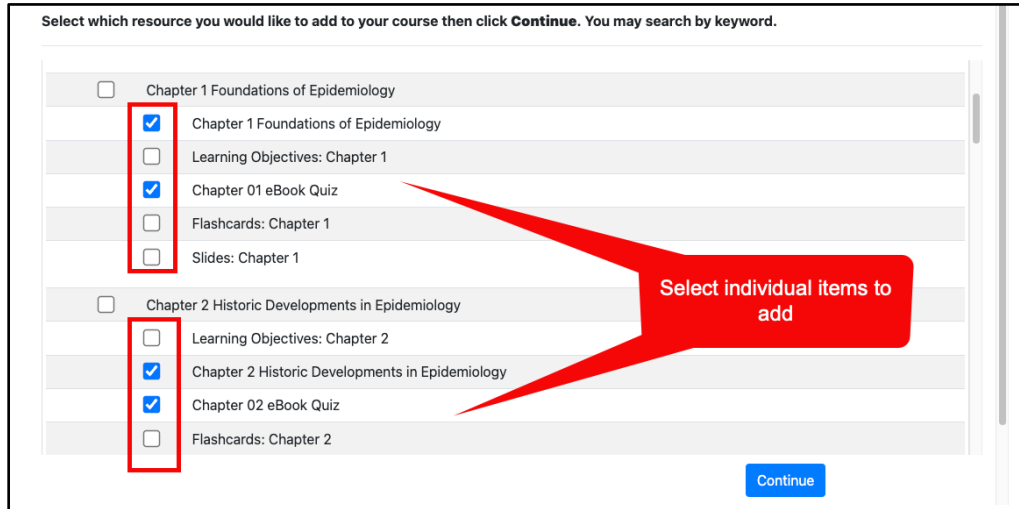

6. A success message displays confirming the contents have been successfully imported. You may **close** this window to return to your course.

7. **Refresh** your Blackboard course page to review the imported content. Where applicable, graded activities should be edited as needed to aggregate and display as desired within the course's gradebook.

8. Alternatively, you may select individual items from chapter(s) one at a time, or multiple in combination from the menu. Using the same JBLearning Courses tool as shown in Steps 2, expand the course's content menu and use the respective checkboxes to the left of the items to import, then click **Continue**.

9. Lastly, you may also add all available contents to your course in one step by selecting the checkbox to the left of the course name, then clicking **Continue**. Note, this method is not recommended as it places all content in one chapter/module and may require manual reorganization afterwards.
