

Integrating Jones & Bartlett Learning Courseware Within Your Learning Management Systems

Introduction

Jones & Bartlett Learning award-winning content is now available to integrate and access from directly within your local Learning Management Systems (LMS)! Using a Learning Tool Interoperability (LTI) standard, educators are empowered with independence and flexibility in how they choose to use Jones & Bartlett Learning content. Our latest integration solution enables secured access to all Jones & Bartlett Learning online content, including eBooks, media, study tools, interactive lectures, simulations, virtual cybersecurity labs, and more from within your LMS. Offering a blueprinted course setup upon install, our LTI-Based Cartridges are compatible with all major LMS brands — Blackboard, Brightspace (D2L), Canvas, and Moodle.

Installation Overview

QUICK AND EASY SET UP

1. An LTI-based course cartridge file delivers an out-of-the-box course format ready to go.
2. A self-guided setup and configuration process allows for easy and independent implementation.
3. Streamlined Single Sign-On (SSO) provides a seamless user registration and access experience.

When considering an integrated solution, always consult with your institution's LMS administrator. Your school may have local requirements or approvals to clear prior to integrating. Upon request, we'll send your course materials via a secured download of a common cartridge file. Your activation credentials and instruction are included to help guide you through importing and enabling the content within your LMS's course shell. And that's it!

Copying courses from term to term or content from course to course becomes a snap using the copy or clone tools native to your LMS. You may also depend on your institution's local support network (peers, administrators, etc.) for help using your LMS without having to contact Jones & Bartlett Learning Support. Our Technical Support may assist with LTI installation as needed, or in the unlikely event of a user access issue.

- 1 Your institution's secured access to approved content is configured and activated.

- 2 An email with your course file and setup credentials is delivered with easy-to-follow installation instructions.

- 3 The course cartridge file is imported into a designated course shell(s) on your local platform.

- 4 The JB Learning LTI App/Tool is configured and enabled within your platform.

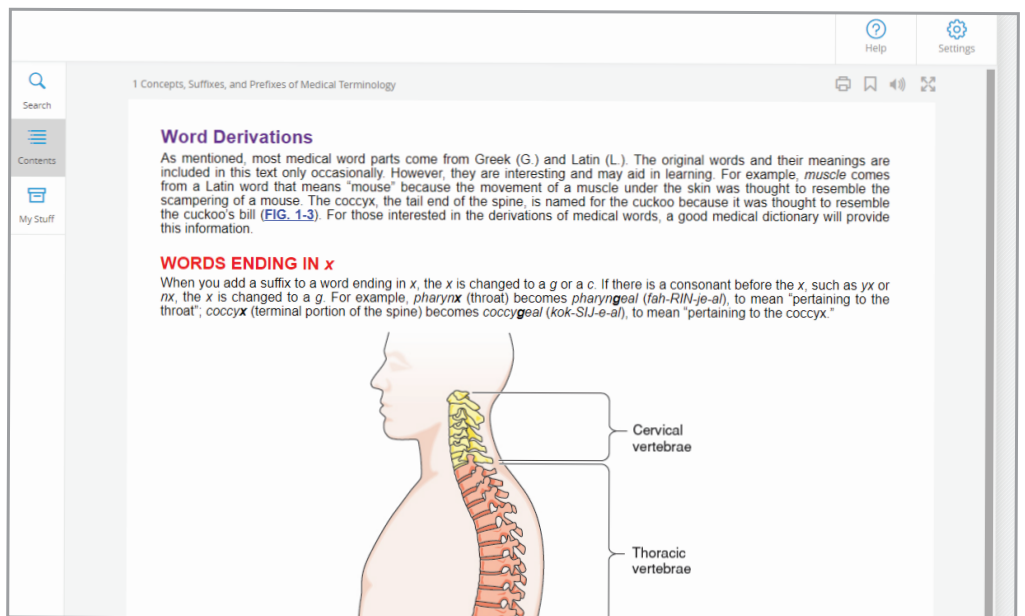

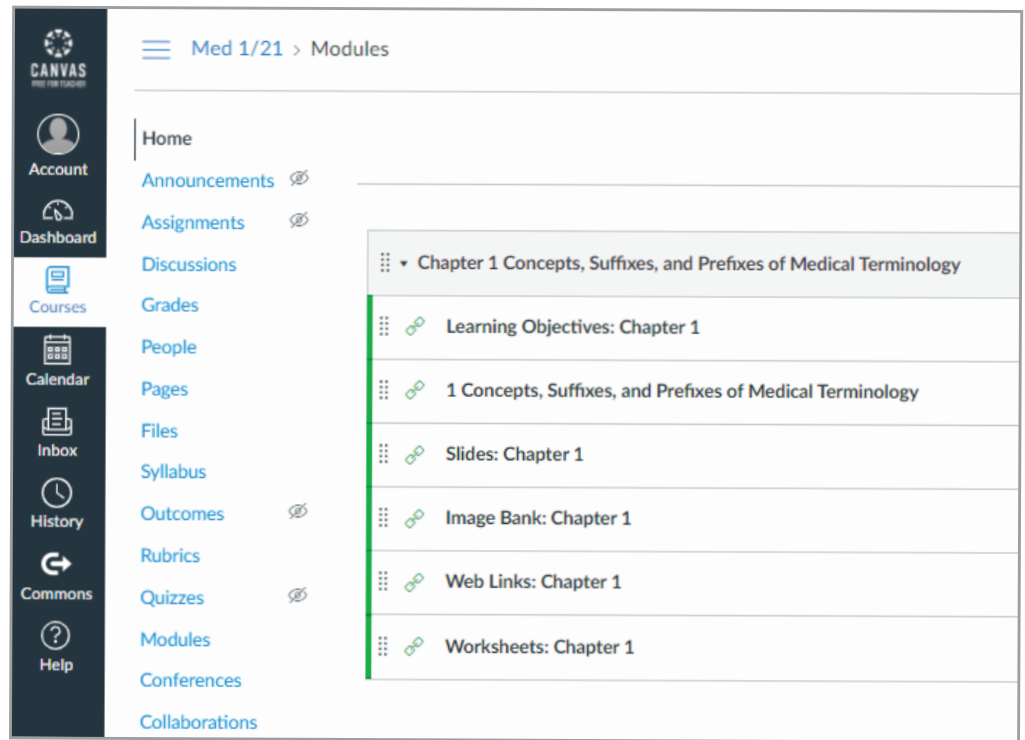

- 5 Enrolled users open course material and register in a Single sign-on (SSO)

The LTI-Based Cartridge setup process

Summary

By integrating Jones & Bartlett Learning LTI-compliant content within your institution's LMS (Blackboard, Brightspace (D2L), Canvas, and Moodle), you can unlock the following benefits for your courses:

- ✓ Access Jones & Bartlett Learning gold-standard content within your local LMS platform and rely on your local support network for all platform needs or issues.
- ✓ Eliminate the need for course IDs or course codes.
- ✓ All course instances are created, named, and managed by your institution.
- ✓ Enjoy Single-Sign-On (SSO) access for all users. Students enter their access code and register from within their LMS the first and only time. No need to manage multiple logins between your institution's LMS and Jones & Bartlett Learning platforms.
- ✓ Create and copy courses at your discretion and enroll/unenroll students from your course autonomously, all within your institution's LMS.
- ✓ Enjoy the freedom of custom-building a blended curricula using a variety of Jones & Bartlett Learning content. Gone are the days of having to enroll students in multiple courses and managing multiple gradebooks for one class. Adopt a blend of titles which meet the unique needs of your curriculum and freely mix and match all the digital assets for an optimal learning experience.

Jones & Bartlett Learning materials appearance within Canvas (top), including an opened eBook page (bottom).

What's next?

We are excited to announce we will be moving to the LTI 1.3 (Advantage) standard to better align with evolving industry requirements. Our current integration solution is based on 1EdTech's LTI 1.1 iteration. We anticipate the arrival of LTI Advantage in 2023!
